505RA

VOLTAGE REDUCER 24 V DC to 12 V DC

The 505RA has complete electronic over-voltage protection and is ideal for use with radios, mobile radios or CB radios. It is conservatively rated at 7 amps load (50% Duty, or 5 amps 100%), current limited at 8.5 amps ($\pm 10\%$). The design of the unit incorporates special protection against jump starts and other voltage spikes experienced in automotive and marine use.

- Wide operating range. Operates from 16 to 32 volts D.C.
- Cool running & small size (80 mm x 70 x 40). Fits anywhere.
- Fully protected load output, isolates the load in 3/1000 second in the event of failure or overload, re-connecting automatically if it is just a spike. The ultimate in protection.
- This model is designed to be fitted inside the vehicle.
- 12 months full warranty.
